THE MX200 - NEW DRO

The New Digital Read Out
from MetLogix

THE Mx200

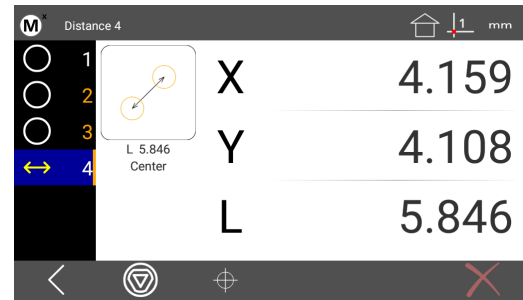

A simple and innovative read out solution for today's metrology marketplace. Ideal for Optical Comparators, Measuring Microscopes or any Metrology device requiring encoder supported measurement.

ROBUST AND SHOP HARDENED DIGITAL READ OUT

- A sealed rubber keypad and durable powder coated enclosure provide lasting performance and trouble free operation in a variety of shop and laboratory conditions.

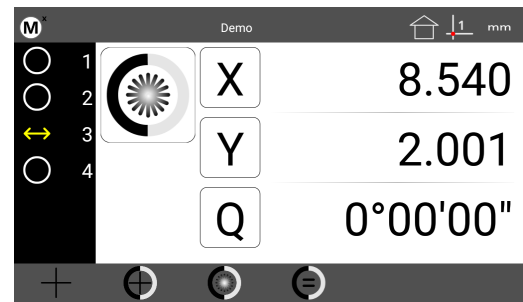

CLEAN, INTUITIVE DESIGN

- Combining a familiar user experience with current touch screen conventions, the Mx200 readout can quickly be integrated into your process while being accessible to a wide range of users.

OPTICAL EDGE AND CROSSHAIR PROBES

- Available for both Optical Edge and crosshair only measurement systems, the Mx200 probing options are simple and intuitive. The exclusive EdgeLogic feature enables gesture driven control of start and end measurement commands, alleviating the need to interact with the DRO directly. Just cross the same edge twice to start and end the measurements!
